

# MONTANA FLATHEAD LAKE CHERRIES

## Montana's Flathead Lake Orchard Region

### Advantages of Growing Cherries In Montana

- Concentration on commercial sweet cherry production **ONLY**
- Preferred climate, soil and water conditions for cherry production
- Extended growing season—90 days “Full Bloom” to harvest
- Long days with plenty of sunshine to develop good taste
- Warm 70-80 degree days and cool 40-50 degree evenings

### Advantages of Selling Montana Flathead Lake Cherries

- Exclusivity of the product in your market(s)
- Good Profit Margins because of exclusivity
- Marketability of the Montana name
- Quality and Taste of Montana cherries
- Extended selling season—the latest cherries harvested
- Transitioning to larger, firmer cherries and later varieties
- Joint Promotions to “attract” and “sell-thru” to your customers
